WELCOME

to the American Osteopathic Association of Prolotherapy Integrative Pain Management's 2012 spring Training Seminar!

We have prepared an outstanding conference focused on Prolotherapy with exciting new information that you, the professional, can use to enhance your clinical practice to provide optimal care to your patients. The planning committee has worked diligently to bring you talented speakers and presentations both basic and advanced. Preconference sessions involving musculoskeletal ultrasound are available to meet your individual and specific clinical needs and interests. National experts will be available to provide hands-on ultrasound experiences.

The prolotherapy program is again available for those interested in acquiring a new skill or to refine your injection techniques. Back by popular demand are additional workshops on platelet rich plasma therapy, mesotherapy, neurotherapy, and minimally invasive prolotherapy.

The Prolotherapy conference will again be located at the luxurious, newly renovated Naples Beach and Golf resort located steps from the most beautiful sunset in southern Florida. Naples is well known for its history as well as fine dining, shopping and sightseeing. Come and experience this beautiful city, famous cuisine, and breathtaking sunsets as well as our world-renowned conference. Take advantage of this educational opportunity to expand your knowledge, renew friendships, network with colleagues and enjoy this educational opportunity.

Christopher A. Davis D.O.
